How do I search a text keyword in a Facebook Page

[Ask Question](#)

I once liked one text post from one FB Page without

clicking its like button (because basically I like every text post from this page).

15

Now, I have to refer that text post in my writing, but the thing is I forgot which post that has that text keyword, I tried searching that keyword by including the name of my FB Page and the keyword on the Search textbox at the

that I can get its post, the one and only, just like when I got a twitter status that has the text keyword I searched.

facebook

I really haven't decoded what this "spotlight" is, but I found this kind of URL:

https://www.facebook.com/Sugarlanddonutsandmore/spotlight/?snippet_text=variety+of+donuts – [brasofilo](#) Feb 6 '16 at 13:37

If the term you are searching for is pretty specific you could try:

1

- entering the search term in the Facebook search box.
- Select `See more results for %your search term%`
- Then in the left hand menu select `Public posts`

How do I search a text keyword in a Facebook Page - Web Applications Stack Exchange

in a group, there's a magnifying Glass icon in the top right-hand corner, near the 'settings' icon

And what does it do? – Vidar S. Ramdal Feb 21 '14 at 8:59

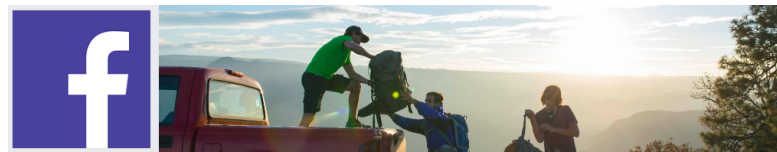

- 1 That only works for groups, not pages. – intcreator May 1 '18 at 22:38

1. From the page you're on, click on the Posts button in the sidebar, to the left.

2

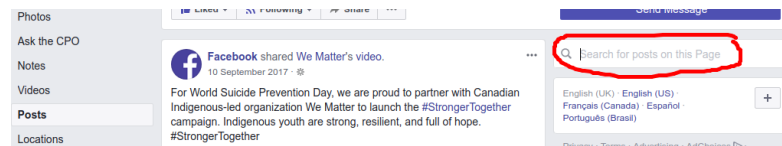

You can then search for posts in the bar that appears on the right:

- 2 @downvoter: Why? This exactly answers the question. –
Schism Apr 5 '18 at 18:15

Maybe it's what the OP meant when saying "the Search
textbox at the right of Facebook's Earth icon" - I don't
remember how the search in page looked 7 years ago –
arieljannai Apr 27 '18 at 19:31

- 1 Maybe, but this actually helped me. I don't know what the
difference is between this answer and what the OP asked for
(searching for a Facebook page for text keyword) – intcreator

Through Google. For instance, if you're looking for
Facebook Italia posts, you should type the following search
string on Google:
site:<https://www.facebook.com/FacebookItalia> followed by
the words you're looking for. The url is not always equal to
the page name
