OFF**

**< UNLIMITED ACCESS
BANPROOF FASTER SERVERS
NO ADS**

Over 1,500,000 people use KProxy monthly for protecting their privacy and identity online since 2005.

Bypass any filter

Bypass online blocks to access foreign content like a local. Get to websites back home when you are abroad. And bypass government or workplace censorship.

Evade hackers

Enjoy complete security with our extension, even on public wifi connections. Prevent hackers stealing your personal passwords, bank account and credit card details.

Surf privately

Hide your IP address (your location and personal information) online. Protect your data from snooping by your internet service provider.

KPROXY EXTENSION

available in the
chrome web store

add-ons for
firefox

[Download KProxy Browser](#). It is a portable Firefox browser configured with KProxy Extension. It doesn't need any installation, just unzip and surf!

100% sites will work

Web based proxies are a pain, forget you are using a proxy with KProxy Extension. If any site doesn't work I'll eat my hat.

100% safe

KProxy Extension encrypts the connection between your browser to your target server, making impossible to steal your data.

Use it at work, university, etc...

KProxy Extension works through the Internet proxies installed at work, university, library... Your connection will be seen as a regular http connection.

Connect everything

Any program or even Windows can use KProxy Extension to connect to Internet. It converts your computer in a proxy server and other devices (a cell phone, a TV...) can hide their traffic behind KProxy Servers.

Better than a VPN

KProxy Extension is not a VPN, an easy to block and slow protocol. Your connection will be seen as a regular http connection. Change to a new server instantly.

No registration or credit card is required to use it. Enjoy, it also has no ads! Too good to be true? Just download it and surf.
